CALL FOR PROPOSALS

Informing the IASB Standard Setting Process

IAAER – KPMG Research Opportunities – Round 4

The International Association for Accounting Education and Research (IAAER), KPMG LLP and the KPMG Foundation are pleased to invite research proposals under the Informing the IASB Standard Setting Process Research Program. The program supports scholarly research directed at informing the IASB’s decision process on any current agenda item. Up to five research grants will be awarded under this program. Funded projects will be showcased at three events involving representatives from the IASB. Funding for this program has been provided by KPMG LLP and the KPMG Foundation.

Program Objective
The IAAER KPMG Research Program promotes and supports research directed at developing theory and evidence to inform the IASB’s decision process for any current agenda item. Proposals pertinent to the IASB’s conceptual framework project or to any standard setting project are welcomed. Proposals addressing (1) the measurement phase of the conceptual framework project and (2) standard setting projects that are on the current agenda but not intended for completion by June 2011 (for example, post-employment benefits, joint ventures, emissions allowances, and accounting for instruments with characteristics of equity) are especially encouraged. Information on projects on the IASB’s current agenda, including projects that the IASB does not plan to complete by June 2011, is available on the IFRS Foundation’s website at www.ifrs.org.

Program Funding
Up to five research projects will be funded. Grants normally will be for $US 25,000 each. A request for more than $US 25,000 should be accompanied by a budget justifying the amount. Grants will be paid in three installments and may be applied to cover travel costs associated with attending program events and/or direct costs associated with the research.

IAAER invites proposals from research teams domiciled anywhere in the world. Proposals are especially encouraged from research teams whose members are from different regions of the world. All research approaches and paradigms are welcome including modeling, archival, experimental, surveys and field analyses. Funding decisions will be based on the potential of the research to provide valuable input to the IASB and its national standard setting partners. Members of the Proposal Review Committee will review proposals and make preliminary recommendations to the Program Advisory Committee. Final funding decisions will be made by the Program Advisory Committee.
Project Deliverables
Between December 1 and December 15, 2011 contracts will be signed by research teams. Each contract will specify interim milestones, deliverables, and expected delivery dates. Key dates to be agreed to in the contract include:

Spring 2012
- Research designs and interim results will be presented at a by-invitation one-day IAAER mini-conference (likely in Amsterdam). Teams will be required to submit interim results to the Program Advisory Committee two weeks prior to the conference. The first grant installment of $8,000 will be dispersed to each team following the mini-conference.

Fall 2012
- Research teams will present interim research findings at a by-invitation one-day IAAER mini-conference (location to be announced). Teams will be required to submit interim results to the Program Advisory Committee two weeks prior to the mini-conference. The second grant installment of $8,000 will be dispersed to each team following the mini-conference.

Spring 2013
- Final results will be presented at a by-invitation IAAER mini-conference in London held immediately before or after an IASB meeting. The final deliverable will focus on highlighting the significance of the findings to the IASB. Representatives of the IASB will be in attendance. Teams will be required to submit final results to the Program Advisory Committee two weeks prior to the workshop. The third grant installment of $9,000 will be dispersed to each team following the mini-conference.

Research Proposal Format
Research proposals should be concise and not exceed 10 pages (1.5 spacing and 12 font). All proposals should be in English. Proposals should contain the following information:

- Clear and concise definitions and description of the:
  1. Research question
  2. Research objectives
  3. Research method to be employed
- Description of the proposed research activities
- References to leading studies on the topic (attach a reference list not exceeding two pages)
- Indication of how the proposed research will inform the IASB decision process for at least one current agenda item.
Each proposal should additionally:

- Designate a Principal Investigator who will have primary contractual responsibility for the research project
- Include a curriculum vitae for each member of the research team

**Publication of Research Findings**
Research teams may publish their findings in the outlet of their choice.
