

IAAER Activities

IAAER Emerging Scholars Workshop in conjunction with IAAER SAAA Joint Conference in Pretoria/Johannesburg, South Africa

On 25 June 2019, IAAER facilitated an emerging scholars workshop at the University of Pretoria (South Africa). The workshop was held in advance of the Southern African Accounting Association (SAAA) Biennial International Conference.

The workshop commenced with a presentation by faculty members, Profs. Leslie Hodder and Patrick Hopkins (Indiana University), on research design considerations to meaningfully address audit and financial reporting issues. A presentation by Prof. Katherine Schipper (Duke University and IAAER past president) on how to read an archival accounting study complemented the morning of the workshop. In the afternoon, twelve emerging scholars from South Africa presented their research and obtained feedback from the IAAER mentors, which also included Prof Donna Street (University of Dayton and IAAER Director Research & Educational Activities) and Dr. Sebastian Hoffmann (University of Edinburgh and IAAER Vice-President Communications).

Snapshot of IFAC's new approach to advancing accountancy education

IFAC has now released a snapshot video of its new approach to advancing accountancy education, available [here](#).
