

IAAER

INTERNATIONAL ASSOCIATION FOR ACCOUNTING EDUCATION & RESEARCH

IAAER STANDARD SETTING SERIES

INTERNATIONAL SUSTAINABILITY STANDARDS BOARD WEBINAR

An overview of the development, content and implications of its proposed Standards

PRESENTER: DR ALAN TEIXEIRA

GLOBAL DIRECTOR OF IFRS RESEARCH AT DELOITTE

Alan was instrumental in developing the architecture underpinning the proposed *IFRS Sustainability Disclosure Standards* and was part of the team that drafted the exposure drafts published by the International Sustainability Standards Board at the end of March 2022.

He will provide an overview of the thinking behind the development and content of the exposure drafts – general requirements and climate, and assess their implications. He will contrast them with concurrent developments in Europe and the US and consider how the Standards could evolve. There will be opportunities to ask questions about the proposals and Alan will provide links to resources that could be helpful for teaching and research purposes.

EVENT DETAILS

Wednesday 31 May 2022

To cater for different time zones the webinar will be run twice

Session 1
7am GMT+1

Session 2
5pm GMT+1
